

HAZEMAG Service. Quality. For a Lifetime.

Repairs

HAZEMAG gives you the opportunity to benefit from a considerably increased operational availability combined with a higher degree of utilization of your plant. Take advantage of our Know-how and long-standing experience.

As a O.E.M. manufacturer we are able to supply all components and refurbish your complete HAZEMAG plant with highly professional repair works, by using the approved technologies, expertise, experience and a unique reliability of more than 175 years mechanical engineering.

Only HAZEMAG can guarantee both, the outstanding quality and the necessary fitting accuracy in the field of repair works. HAZEMAG has unrestricted and exclusive access to all design drawings ever produced. You can, therefore, rely on our ability to offer repair works for every machine produced by HAZEMAG and this is also true for your machine.

Highly sophisticated HAZEMAG repairs are a cost-efficient, genuine and reliable alternative to the acquisition of a new machine/plant.

We offer repairs for ...

- HAZEMAG plants
- housings
- rotors
- conveyors

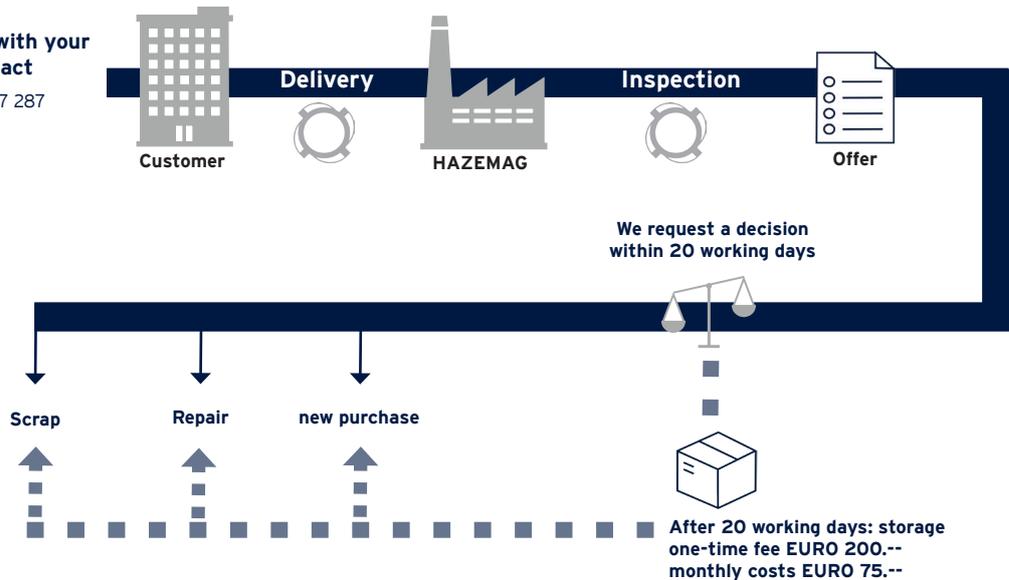

Please also take advantage of our broad experience for your rotor repairs of non O.E.M. HAZEMAG designs, originating from common manufacturers. Please feel free to contact us.

All advantages at a glance:

- minimization of downtime
- reliable and easy to plan
- cost-effective alternative
- increase of plant availability and lifetime
- high quality and fitting accuracy
