

PRESS RELEASE

HAZEMAG Group bundles activities for sustainable growth

Düsseldorf / Dülmen (05.03.2020) The proven product portfolio of HAZEMAG & EPR GmbH is now marketed by HAZEMAG Systems GmbH. The sales and process know-how as well as the competence in the plant business within the HAZEMAG Group will now be bundled at the Düsseldorf location.

With its new structure and its Düsseldorf location, HAZEMAG Systems is sending a clear signal to its customers and partners: "Thanks to the new strategic orientation and the relocation, we are gaining more flexibility and better opportunities to respond to the individual customer needs. At the same time, we are convinced that by focusing on both locations, we can further expand our services", explains Erik Bach, Managing Director of HAZEMAG Systems.

HAZEMAG offers to customers remain unchanged

While HAZEMAG Systems manages the capital and plant business, the location in Dülmen continues to focus on the production of individual machines, spare parts and repairs. All services are offered under the well-known brand HAZEMAG. "Nothing will change in our strong portfolio. We want to continue to be a trusted partner in the raw materials industry for our customers in the future", emphasizes Erik Bach.
